

SELVAVENTHAN RISHIKESAN

Software Engineer | Full-Stack Developer (Flutter, React/Next.js, Firebase)

Phone: +94 77 076 0636 | Email: bsrishi2003@gmail.com | Portfolio: rishiware.com

LinkedIn: rishikesan05 | GitHub: Rishikesan05 | Colombo, Sri Lanka

PROFILE

Seeking a Software Engineering Internship to apply full-stack development experience across React, Next.js, Flutter, and Firebase in a fast-paced product environment. Delivered production platforms for a live company (HOUSEFIX.LK) and taught software engineering fundamentals to undergraduate students, combining production engineering experience with the communication skills to explain technical concepts and trade-offs clearly to both technical and non-technical audiences.

PROFESSIONAL EXPERIENCE

Full-Stack Digital Transformation Engineer - HOUSEFIX.LK (PVT) LTD

Mar 2026 – Sep 2026

Jaffna, Sri Lanka (Part-time, Hybrid)

- Architected and deployed 3 full-stack web and mobile platforms, replacing manual company workflows and cutting order-processing turnaround time by 40% for internal teams.
- Engineered solutions across the full stack, building web platforms with React and Next.js, mobile applications with Flutter and Firebase, and internal automation scripts using Python.
- Delivered the company's corporate website (housefix.lk) and the PRIMEWARE brand sub-site end-to-end, from architecture through launch, now serving 1,000+ monthly visitors.
- Configured domain, DNS, and hosting infrastructure for housefix.lk and the PRIMEWARE sub-site using Cloudflare and Hostinger, including business email setup via Zoho Mail.

BIT Instructor - RMII, Ridmath Institute of Innovation

Jun 2025 – Aug 2026

Colombo, Sri Lanka (Online)

- Deliver lectures and hands-on technical mentorship for 30+ BIT students in IT 2206: Fundamentals of Software Engineering.
- Developed lecture materials, practical assignments and model papers to support student learning and assessment.

Freelance Tutor, Mathematics & Computer Science - Self-Employed

May 2025 – Aug 2026

Cambridge & Elysium Syllabus | Pambahinna, Kiri-methenna (Physical)

- Deliver personalized lesson plans to 17+ students across Cambridge and Elysium curricula in multiple regions of Balangoda, Sri Lanka, with 75%+ reporting improved grades.

KEY PROJECTS

Custom AI Agent - Individual

May 2026 – Jul 2026

Production-grade conversational AI assistant engineered with persistent semantic memory and device-level vault isolation, enabling personalized recall across sessions instead of the ephemeral context typical of standard chatbots.

- Built a RAG pipeline that extracts, embeds (Gemini embeddings), and indexes user facts into a local FAISS vector store, using cosine-similarity search to recall relevant memories and augment responses.
- Implemented device-persistent multi-user vault isolation, voice input via the Web Speech API, and an automated multi-model fallback chain for API rate-limit resilience.

Stack: Python, LangChain, FAISS, Google Gemini API, Streamlit | GitHub: Rishikesan05/Custom-AI-Agent | Live: aiagent-rishiware.streamlit.app

AI Document Search - Individual

Mar 2026 – May 2026

RAG-based chatbot that lets users upload PDF documents and get context-aware, cited answers extracted directly from the files, with real-time streaming responses.

- Built a document ingestion pipeline (PyPDF2 and LangChain chunking) with local FAISS vector embeddings for semantic retrieval, streaming answers in real time via the Gemini API.
- Added source-citation transparency, an expandable retrieved-context view, and built-in latency and performance tracking, averaging ~2 seconds per query across 5-query benchmark testing.

Stack: Python, LangChain, FAISS, PyPDF2, Google Gemini API, Streamlit | GitHub: Rishikesan05/AI-Document-Search | Live: aidoc-rishiware.streamlit.app

RideSync - Group Project

Jan 2026 – Aug 2026

Multi-platform smart bus management and telemetry ecosystem for local transit, featuring live GPS tracking, dynamic seat booking, automated fare computation, and a Gemini-powered AI transit assistant, built as a team monorepo spanning mobile, web, and backend.

- My Contribution: Built the foundational Flutter mobile app architecture, including the route finder feature, and integrated it with the Firebase backend for real-time data synchronization and secure authentication. Designed several app screens in Figma and developed the Gemini-powered AI Transit Assistant chatbot for in-app schedule queries.

- Stack: Flutter, Firebase, Dart, Google Maps API, Google Gemini API | GitHub: Rishikesan05/RideSync-App-Development
- Figma: RideSync Design | Demo Video: Watch Demo

Diasaver - Group Project

Oct 2024 – Jan 2025

Health-tech full-stack application leveraging machine learning algorithms to predict diabetes risk based on patient data, providing actionable prevention tips, symptom awareness, and healthcare resources with support for English, Sinhala, and Tamil.

- My Contribution: Engineered the Flask backend to integrate a Python-based predictive ML model (Scikit-Learn/NumPy). Developed an interactive and accessible frontend in React to visualize complex health insights and symptom data.
- Stack: React, Flask, Python, ML, JavaScript, CSS, NumPy, Joblib | GitHub: MayooreEkanthan/DiaSaver

EDUCATION

B.Sc. (Hons) in Information Systems

Jun 2024 – Present

Sabaragamuwa University of Sri Lanka, Belihuloya | Expected Graduation: 2028

G.C.E. Advanced Level, Physical Science Stream

Jan 2014 – Feb 2023

Jaffna Hindu College, Jaffna

SKILLS

Languages: JavaScript, Dart, Python, Java, HTML/CSS

Frameworks: Flutter, React, Next.js, Node.js, Flask, Streamlit

AI & ML: LangChain, FAISS, Google Gemini API, Scikit-Learn, NumPy

Backend & Cloud: Firebase, REST APIs

Databases: Firestore, MySQL, SQLite

Hosting & Deployment: Vercel, Cloudflare, Hostinger, Zoho Mail

Tools: Git, GitHub, Postman, VS Code, Android Studio

Design: Figma, UI/UX, Responsive Web Design

Soft Skills: Communication, Team Leadership, Problem-Solving, Time Management, Public Speaking, Adaptability

CERTIFICATIONS

- Python Programming & Python for Beginners, University of Moratuwa Dec 2025
- Google AI Essentials (Specialization), Google Sep 2025
- Software Engineering Job Simulation, Goldman Sachs (Forage) Dec 2024

AWARDS & ACHIEVEMENTS

- Top 10 Best Performing Leo, ZENOVA'26, Leo Club of SUSL May 2026
- Most Outstanding Designer, ZENOVA'26, Leo Club of SUSL May 2026
- Best Background Music, Tamil Drama Festival, Dept. of Languages, FSSL, SUSL Sep 2025
- Best Club Award, YMHA, JHC Sep 2022

VOLUNTEERING & ACTIVITIES

- Main Designer, Editorial Team, Leo Club of SUSL Sep 2025 – Present
- Graphic Designer, PR Committee, Faculty of Computing, SUSL Oct 2024 – Present
- Active Member, IEEE Student Branch & Society of Computer Science, SUSL Oct 2024 – Present
- President (YMHA & A/L Union) & Board of Prefects, Jaffna Hindu College Feb 2020 – Feb 2023

LANGUAGES

Tamil: Native / Bilingual | English: Professional Working | Sinhala: Elementary
